

Modern Drummer's 1995 INDEX UPDATE

In our continuing effort to maximize the value of *Modern Drummer* as a reference tool, the editors of *MD* are pleased to offer this 1995 Index Update. The listings presented here are a guide to virtually all of the biographical, educational, or special-interest information presented in *Modern Drummer* in the past year. Information presented in *Modern Drummer* issues dated 1986 or earlier is indexed in *MD's Ten-Year Index* (which was presented in the December 1986 issue). Year-end indexes have been presented in each December issue since 1987, and will continue as a regular feature in the future.

The format for the index varies somewhat, according to the information being presented. For example, the names on the *Artist Reference List* are presented alphabetically, followed by coded information showing where any biographical or educational information pertaining to each person named might be found. In other words, you should be able to look up your favorite drummer and immediately see where anything *MD* published about that drummer in 1995 may be located. You'll also be informed as to whether that drummer has written any columns for *MD*, and if so, in which column departments you should look them up.

Unless otherwise noted in their headings, the column departments are indexed alphabetically by the author's last name. In this way, you can check out "everything written by" your favorite columnist in 1995. Notable exceptions are *Impressions*, *Artist On Track*, *Drum Soloist*, *Off The Record*, and *Rock Charts*, which are indexed by the artists' names—as are the recording, video, and book reviews in *Critique*.

Product reviews—regardless of the column in which they appeared—are listed alphabetically by manufacturer or product name in the *Product Review/Information Columns* section. In this way, you can quickly find out what our reviewers thought of any particular piece of equipment simply by looking up the item by name. Information contained in product press releases that appeared in the *New And Notable* department is also presented in this section. These releases often contain addresses and/or phone numbers that can help you obtain further information on products you find interesting.

It is our hope that the manner in which we have organized our *Index Update* will make it easy to use, so that you can have quick and easy access to the wealth of information presented in *MD's* pages over the past year.

KEY TO SYMBOLS USED THROUGHOUT THE INDEX

The parenthetical abbreviations indicate where information on (or authored by) a given artist may be found. (In the case of the *Product Review Columns*, the abbreviations indicate where information on a given product may be found.) With the exception of (F), all abbreviations refer to column or department titles.
